Dear Dadi

Dear Dadi, I hope this letter finds you in good health. Have you read any of my essays yet? When will you come to America? You should send us some letters too. We all want some letters from you. If you send us a lot of letters we will send you a lot of

letters. Thank you for the name board. We played with it on the exact same day we got it. Anya and I enjoyed playing with it. Tell Dada that I know two digit multiplication now, Anya knows a little bit of multiplication. Yours truly and lovingly Lyla.
