Cursive

I learn cursive in third grade. My teacher gives me cursive worksheets and I have a blue cursive book. In our class there is a big cursive chart. It has letters from A to Z. So far I have learned B, L, U, E, I, T,

and W. My teacher teaches me very nicely. On the second day, she started teaching us cursive. She writes all the cursive, on the white board. Soon we are going to learn the whole cursive alphabet. I love cursive.
